OUR PHILOSOPHY

Shankara makes the finest skincare products that nurture your inner and outer beauty. Over nearly two decades, we’ve perfected the union of ancient eastern Ayurveda and the western knowledge of actives into our uniquely effective, result-oriented products.

Behind everything we do is a strong intent to serve humanity. We support worthy social initiatives like education for the underprivileged in developing countries, women’s leadership, and veterans programs through the International Association for Human Values and the Art of Living Foundation.

I love the oils. My skin feels so much better than using lotions. I'd like to have them all but money is not that a
The smells are wonderful.
